Nieves Ureña Torres

(murena@ing.uc3m.es)

Office: 1.1J08

LABORATORY SESSIONS

- In the **Master Group** section of **Aula Global** you will find the **lists of students** and **schedules corresponding to each laboratory group** :
 - 8-10 students aprox. per group
 - There are groups A, B and C. **VERIFY your group and whether you have any schedule compatibility issues.**
- The **laboratory guide** can be found in Aula Global

LABORATORY SESSIONS

SAFETY IN LABORATORIES

- Safety videos uploaded in the Small Group section of Aula Global should be watched.
 - GENERAL SECURITY VIDEO
 - CHEMISTRY LAB SECURITY VIDEO
- You must correctly answer all the questions of the SECURITY TESTS (One test for each video). **The deadline closes the 22nd of OCTOBER.** You can perform the tests as many times as necessary to answer all the questions correctly.

ANSWERING ALL THE QUESTIONS OF THE TESTS CORRECTLY ENABLES YOU TO ENTER THE LABORATORY!!!

**ENTRANCE TO THE LABORATORY
WILL NOT BE ALLOWED TO
THOSE WHO DO NOT CARRY
OUT THE TESTS CORRECTLY**

SAFETY IN LABORATORIES -

TO BE ALLOWED INTO THE LABORATORY IT IS MANDATORY:

- Bringing: mask, safety glasses and lab coat
- Washing your hands before and after the lab session
- Cleaning the workplace at the end of the practice
- You will be provided with gloves

LABORATORY SESSIONS VIDEOS

In Aula Global, you can find the videos corresponding to each laboratory session. **It is mandatory to watch these videos before to go to the laboratory.**

Session 1: Crystalline structures

Session 2: Mechanical properties (tensile test)

Session 3: Identification of polymers. Analytical procedures

Session 4: Composites materials

- During the practice you must make a report in pairs that you must deliver one week after the day of the practice, as your teacher will indicate that day.
