

Introduction to Business

Group 45 &46
Engineers & Management
Business Plan

Professor: Juan Repiso (Office: 1.3.A06)

engineers

managers

Indicative Steps

- Draft an executive summary
- Write a company description
- Perform a market analysis
- Outline the management and organization
- List your products and services
- Perform customer segmentation
- Define a marketing plan
- Provide a logistics and operations plan
- Make a financial plan

Main objectives

- Identify, describe and analyse a NEW business opportunity, or corporate decision.
- Explore and exam the business technical, economic and financial feasibility.
- Quantify important indicators
- Challenge different scenarios
- Search “money”. Convince investors.
-

BUSINESS PLAN

should be useful for **YOUR** objectives, so the final execution may vary, despite the fact that the basic structure from the business point of view should be maintained

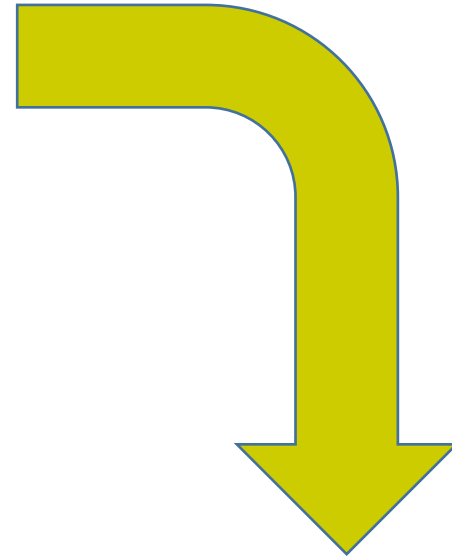

5-6

members

Outline the idea by answering the following questions

- What's your initial business idea?
- What are you going to offer (product or service)?
- Who will your customers be? And allies/partners?

MINIMUM REQUIREMENTS

- ✓ Relevant and desirable product/service for the customer
- ✓ Viable product/service (has to be cost-effective)
- ✓ Product/service technically or technologically possible
- ✓ Everything you need to convince potential investors...

Identify problems and needs

- Why would we like to develop this idea?
- What are the problems or needs we won't address?
- What are the needs of potential customers that we want to meet?

**HOW SHOULD YOU MAKE
THE CUSTOMER FEEL THE
EXPERIENCE/PRODUCT OR
SERVICE?**

**WHERE SHOULD THE
VALUE BE CREATED?**

Different targets, different needs...

Generation Baby Boomer

1946-1964

they care about
health, wealth, quality

Generation X

1965-1980

they are anti,
busy and cynical

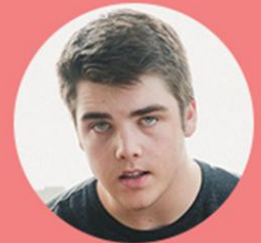

Generation Y

1980-1996

they've grown up
with technology

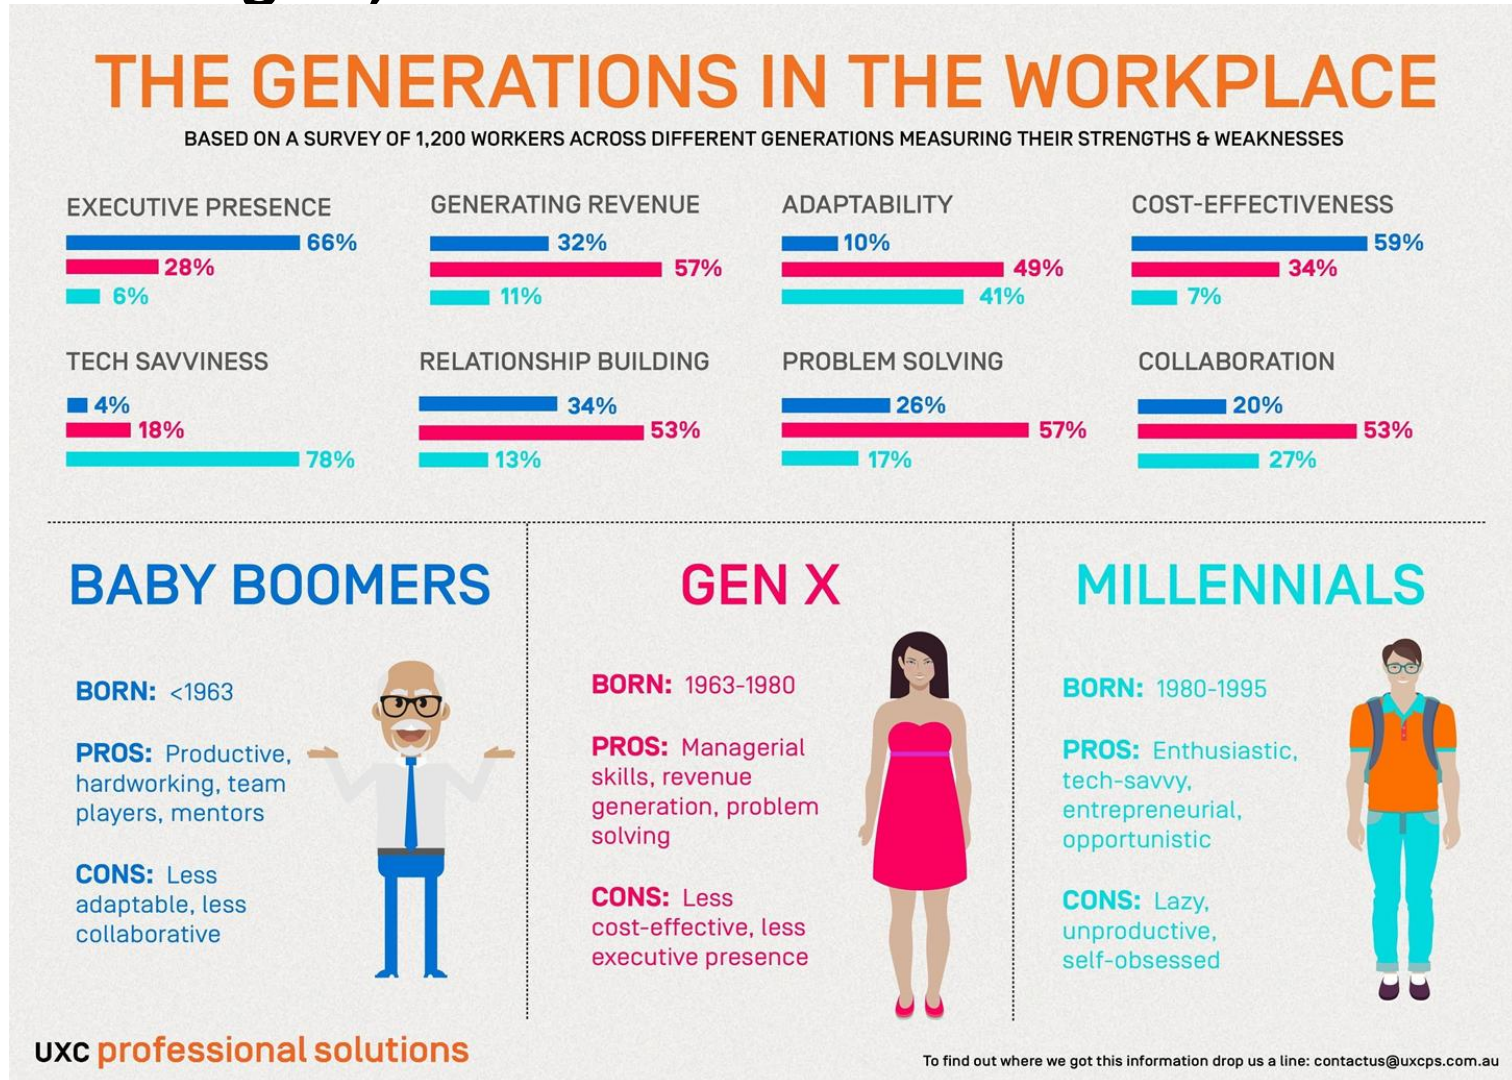

Generation Z

1997-2015

they are
born digital

Different targets, different needs...

LET'S
DO IT!
